Station 31 Sets a New Standard for Live Entertainment Across Southern Ontario

Halton Region, Ontario — Station 31 is quickly establishing itself as one of the most exciting and reliable live bands in Southern Ontario, delivering high-energy performances that blend musical range, audience connection, and professional execution. Since officially launching in 2023, the band has become a go-to act for venues, festivals, private events, and corporate functions throughout the region.

At the core of Station 31 are founding members **Shaun Kazemi** and **Jody Hayes**, two seasoned musicians whose creative paths first intersected more than twenty years ago in the local music scene. After years of pursuing separate projects, the pair reunited with a shared goal: to create a live band focused entirely on memorable, high-impact performances.

The addition of **Colleen Hayes** as lead vocalist brought a powerful new dynamic to the group. Known for her vocal strength, versatility, and natural command of the stage, Hayes plays a central role in shaping the band's live presence. Rounded out by **Chris on bass**, Station 31 operates as a cohesive, performance-driven unit capable of adapting to any room or crowd.

What sets Station 31 apart is its ability to move seamlessly across genres. From rock anthems and pop hits to retro favorites, country staples, and hip-hop crossovers, the band's setlists are intentionally unpredictable and tailored to each audience—keeping shows fresh and engaging from start to finish.

Station 31 has appeared at a wide range of events across Southern Ontario, including hospitality venues, professional sporting events, corporate functions, community celebrations, weddings, and private engagements. Their growing reputation is built on consistency, energy, and a clear understanding of what live audiences want.

In recognition of their impact, Station 31 received **Platinum Awards in 2025** through **Community Votes**, earning top honors such as *Best Live Band* and *Live Entertainer* in several municipalities, including **Mississauga, Milton, and Georgetown**.

As demand continues to grow, Station 31 remains focused on one thing: delivering standout live performances that exceed expectations and keep audiences coming back.
